How to get BabelWeb?

git clone <u>git://git.wifi.pps.univ-paris-diderot.fr/babelweb.git</u>

There is also a <u>github mirror</u>.

<u>BabelWeb</u> is proudly brought to you by <u>Gabriel Kerneis</u>. It is inspired by
BabelTool, a Java software by <u>Pejman Attar</u> and Alexis Roso. Many thanks to
Didier Gillet who coined the name.
