Attn; CEO/Director.

Sir/Madam

It is my great pleasure to write to you and present my business proposal for your consideration and possible acceptance which you will find mutually beneficial to both parties.

As an introduction, **I am Mrs. Franca P. Mutizwa the CEO & Director of Delta Corporation Limited, Zimbabwe.** I am a widow with three children, a boy and two girls and I have been in employment for the past 25 years during which time I rose to the official rank of CEO & Director. My son is currently schooling in South Africa.

My husband was kidnapped and killed on 25th March 2009 by the militia group of President Mr. Robert Mugabe. Before his untimely death; he was a farmer and a district head of the Movement for Democratic Change (MDC), opposition party to Mr. Mugabe.

I have a substantial capital which I earnestly proposed to invest in South Africa due to the political instability in my country, Zimbabwe. I have now decided contact you for assistance in any lucrative venture of which you are to advise and assist execute the said venture in your country for the mutual benefits of both of us. My long-term idea is for you to become my business partner in your country and generate ideas on how this fund will be invested managed and the type of investments after the money is transferred to your custody with your assistance. You will present to me the best possible business opportunities that are secured and would guarantee good returns on investment.

My ideas and thoughts are centered on core areas of investments particularly:

- 1. Real Estate business that is purchase, construction and subsequent sale of modern houses (residential and offices) and hotels in good locations.**
- 2. Tourist business development**
- 3. Mining, oil & gas (energy)**
- 4. Capital market that is trading in viable company shares / stocks**

I would therefore appreciate further information on what areas of investment in your country you can propose bearing in mind my enumerated areas of interest and I shall appreciate your comments and thoughts about the investment opportunities in your country and beyond. The investment fund is in the sum of US\$7m and this represents cumulative commissions I earned since from 1998 till date as executive members of the company. The funds due to Mr. Mugabe dictatorial regime harsh foreign transfer policies this fund could not be remitted out of the country hence I and my late decided to place it in the custody of a finance company in South Africa. A memorandum of understanding will be drawn up between parties clearly defining the benefit ratio as we progress in this project.

You will act as a conduit for the transfer of the **US\$7M**, setup appropriate entities necessary for management of the said funds and advise as to the best investments to ensure maximum returns. Be informed that upon your acceptance to assist in this project, both of us shall travel to South Africa for the claim and deposit of the fund into an account you will open in any commercial bank and the transfer will be effected immediately. You are requested to send the below information to enable me put up application for claims of the funds before the finance company as the beneficiary of the said fund.

- (1) Your full name and address**
- (2) Your company name and address**
- (3) Your mobile, telephone and fax numbers**

Upon receipt of the above data, I shall request for the beneficiary right in your favor from the finance company and an arrangement to visit South Africa will follow immediately. I will then come over to meet you in South Africa. I am not a businesswoman so I shall rely so much on you to realize my investment plans. I shall be glad to reserve this respect and opportunity for you, if you so desire, but do urge you to give the matter your immediate attention it deserves. Please upon receipt of this proposal kindly reply to my below email address and i will respond to you immediately.

You can contact my son, Jacob Mutizwa with his number +27 730223811

Thank you for your kind attention
