LED Flood light-Traditional series

Product Feature

- 1.Adopting integrated Chip as light source, with high LED initial luminous flux 80-100LM/W,good heat dissipation,low light decay
- 2.Aluminum alloy die cast housing, good strength, high quality heat dissipation. anti corrosion and baking varnish surface.
- 3.More energy-saving,can saves more than 70% energy compared with the traditional lamp.
- 4.Performance more stable,high voltage low current,long life time up to 50000 Hrs.
- 5.Chips are installed on the polished board,good for heat emission,columnar design radiator make the heat move quickly.
- 6.No UV & IR. It won't distribute ray radiation
- 7.Eco-friendly, No Hg & Xe, or other harmful element. Recyclable, also it won't generate EMI
- 8.No bad glare and stroboscopic
- 9.Install easily,widelt used in square,garden,museum ,3years warranty

Main Parameter

Light source:High quality LED chip Corlor Temperature:2800-7500K
 Input Voltage:AC 100-260V,DC10V/24V Beam angle:120D,60D is available.
 CRI>80,IP65, RGB/Red/Green/Blue, anti-corrosion type,sensor type ,rechargeable type are available.
 Power Factor>0.92,power Efficiency>0.9,working life span>50000 Hrs,Working Temperature:-20C-45C

10-50W

Production Feature:

Aging Test

Shock test

LED chip installed on polished board, good for heat emission from LED lighting source
