

Attn: Director / CEO. Good-Day,

My Name is Bar. Morgan Adams, attorney/ Legal consultant and Adviser here in South Africa to late Mr. Saif Al-Arab Gaddafi (second son of late Libyan President) who was killed on 30th of April 2011 in Tripoli by NATO air strike. Before the brutal killing of Mr. Saif Gaddafi in April, he brought a consignment to South Africa containing an amount of \$35,000,000.00 (thirty five million United States dollars) which I assisted him to lodge with a Private Security & Finance Company here as family valuables during one of his visit to South Africa before the political uprising/brutal war in Libya with hope that after the tension in Libya he will later come to invest the funds here in South Africa but unfortunately he died in the process.

As a matter of fact, I am in possession of all vital documents covering this consignment with the security & finance company where the consignment was deposited as family valuables. Once the final transfer or change of ownership of the consignment is made on your name as the appointed beneficiary, you will assist me to invest my own share wisely in any lucrative business ventures to benefit both of us if we are not into partnership.

This transaction requires absolute confidentiality as a top secret because no other person outside my family has idea about the funds but presently there are speculations that the above mentioned late president and his family has funds and assets in other countries of the world and majorly in Africa and some of the information was published publicly. I advised him to register the funds as family valuables at the Security Company for fears of being confiscated due to lack of time to process documents that will protect the funds at that time.
