Good Day

I hope you would not be embarrassed to read such a traumatizing mail from someone you do not know and have not met before. My name is Paul Made, the only son of Mr. Jerold Made from Zimbabwe currently residing in South Africa as asylum Seekers. I am contacting you on behalf of my father, who is currently paralyzed and my mother Mrs. Anna Made and two sisters Maria and Jane, we seek your assistance for a new life and the investment of US\$ 15, 200, 000, 00 (Fifteen Million, two hundred thousand United States Dollars).

The story of Zimbabwe, as I believe is no more news but probably has made headlines on almost all countries national news papers. But you can read more from the URL below, generated from the Human Right Watch.

<http://www.hrw.org/reports/2002/zimbabwe/ZimLand0302-03.htm>

Our farm was invaded on the 23rd of January 2003 by the war veterans of the ZANU-PF being the electoral party of the current president Robert Mugabe. At first there was an understanding that we should share the land in equal with them, which my father peacefully agreed and shared the land to maintain peace and to remain in his tobacco business, but the story changed after the last election of March 29 2008, which the whole supporters of the opposition party of MDC (Movement for democratic change) believed that the ZANU-PF has lost the election and also many country believed the same and the delay in the release of the presidential result.

This caused more problems on the MDC supporters which my family as one of the families that supports the MDC was asked to evacuate our family business and everything that we own to the ZANU-PF war veterans and many other families where affected.

Let me not go further in touching my wounds. This news shocked my father causing him a brain stroke and half of his body is being paralyzed till date. We left to South Africa and upon our arrival my mother made a deposit of the above mentioned amount into one of the Private Banks. but to our greatest surprise we were expecting the President of South Africa where most Zimbabweans has ran to secure their lives, to intervene on the case, since he is the Mediator and to the world's greatest surprise he made it clear on a National Conference that there was no crisis in Zimbabwe. This has posed a lot of questions to our security in this neighboring country.

Coupled with the recent xenophobic attack on foreigners in South Africa, we have come to a conclusion that is not a safe place for us to be, as many foreign investors are pulling out there Investment from this country, and we cannot continue with any form of investment. The above funds was moved from Zimbabwe through the Eagle Security Services and with documents of clean background it was accepted and deposited as investment fund under my name (PAUL MADE) as the beneficiary. As it stands we cannot move this fund out of this country via security services anymore as it has being deposited into an account already and our status as refugees has limitations to certain financial obligations and operations.

Please my family would really appreciate it if you could help us; we only need your help to stand as our Overseas Family Business Partner and the fund would be transferred to you on Investment Ground and I would fly my family out of this country to meet with you and start up a new life and a proper medical attention for my father.

This is a clean fund from our family business. All we need is a new life somewhere that is secure  
I would give you more details on how this could be achievable as soon as I get your favorable response.

Yours Faithfully  
Mr. Paul Made (Son)  
For the Family
